

NPRO CAM Plugin is the most advanced physics based process simulation and NC program optimization NX™ CAM Software Plugin available. NPRO allows process planners to visualize, simulate, and optimize NC tool paths directly in NX CAM.

NPRO is the ultimate machining optimization tool for process planners and NC programmers.

**NPRO Features:**  
Chatter Detection  
Process Simulation  
Toolpath Optimization  
2.5, 3.0 and 5.0 Axis Machining
